Dear Cal,

For years people have been saying what you say in a different way: if the government has nothing to hide why does it hide so much?

I never got copies of Oswald's discharge papers.

You can get them from The National Archives, JFK Assassination Archive, College Park, MD. I do not know the zip. All Americans are to get the first 100 copies free, pages, rather, under the 1992 Act.

Whenever you come will be OK if we are free then. Please check first.

The weather does not look very good for travel right now.

Sincerely,

Harold Weisberg
